

Rainfall notebook

Practice worksheet | Fictional classroom data

Our learning goal

Read a data table and support an answer with measurements.
Use the same rain gauge and record rainfall at the same time each day.

One week of rainfall

Day	Rainfall (mm)
Monday	0
Tuesday	6
Wednesday	2
Thursday	0
Friday	4

Use evidence from the table

- Which day had the most rainfall? Include the measurement.

- How much more rain fell on Tuesday than on Wednesday?

- How much rain fell during the whole week? Show your calculation.
